INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories (publishers of the Jacksonville City Directory since 1957), presents to subscribers and the general public, this, the 1961 edition of the Jacksonville City Directory, which also includes Country Club Acres, Forest Grove Subdivision, Forest Hills Subdivision and Oak Grove Subdivision.

Confidence in the growth of Jacksonville's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Jacksonville to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the results of their labors will meet with the approval of every user, and that the Jacksonville Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:--

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city and vicinity, arranged in alphabetical order under appropriate headings--a catalog of all the activities of the city and vicinity. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a progressive community like Jacksonville, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Jacksonville, Country Club Acres, Forest Grove Subdivision, Forest Hills Subdivision and Oak Grove Subdivision, and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fourth major department.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To

broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Jacksonville and vicinity.

The Jacksonville Out-of-Town City Directory Library

Through the courtesy of the publishers of the Jacksonville City Directory, a Directory Library is maintained in the offices of the Greater Jacksonville Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Metropolitan Jacksonville is one of the fastest growing communities in the State of North Carolina. The growth has been of such proportions that it is almost impossible to give in any concise manner, an idea of all the changes that have occurred and to interpret what all the changes in the civic, social and business life of the City mean to those who live here.

The population statistics for the City of Jacksonville show the reasons for the increased services and needs of the Community. As can be seen from the following table, Jacksonville's population has more than tripled in the short time between 1950-1956.

ONslow COUNTY

General Review

Onslow County was formed in 1734 from New Hanover County and was named for Sir Arthur Onslow who was speaker of the House of Commons in the British Parliament.

The first Court House for Onslow County is believed to have been located at Court House Bay, six miles from the mouth of New River. The second County Seat and Court House were on Northeast Branch about twenty miles from the mouth of New River where the U. S. Marine Corps Officers Quarters at Paradise Point, Camp Lejeune are now located.

The third Court House location at Johnstown, named for Royal Governor Gabriel Johnston was about 14 miles from the mouth of New River. The town failed to grow and most of the buildings were destroyed by a hurricane in 1752.

The fourth and present site of the Onslow County Court House was named "Wantland Ferry" for James Wantland, who in 1756 donated an acre of land "convenient to many" for the Court House. Four edifices preceded the present structure erected in 1904 and remodeled in 1951.

Records in the Register of Deeds Office at the Onslow County Court House date back to 1713.

President George Washington passed through Onslow County on his southern tour in 1791, enroute to Wilmington. He took breakfast at "Everetts" near Richlands, and dinner at Captain James Foy's at Ricks Run and spent the night at "Sage's Ordinary," in the southern part of Onslow County. President Washington wrote in his diary about this part of his trip.

Two governors of North Carolina may be claimed by Onslow County.

Edward B. Dudley, elected from New Hanover County, the first governor elected by the direct vote of the people, served two terms from 1836 to 1841. He was born and reared in Onslow County.

Governor Daniel C. Russell, born in Brunswick County, was the son of two Onslow County natives and spent his childhood at the home of his grandfather, David W. Sander a member of the Council of State. Governor Russell served from 1897 to 1901.

New River despite its name, is known to be the mouth of one of the oldest rivers in America. It is the only large river in North Carolina with headwaters and mouth in the same County, Onslow, and it is one of the few rivers of any size in the United States which flows almost due South. Its three forks are also unusual in that they bring little water in to feed the main stream. Another peculiarity is that it seems to be all mouth and nothing much more. The estuary is about 20 miles long and in places three to five miles wide.

Wars have seriously affected the New River Region throughout their early history.

NEW RIVER SHOPPING CENTER

EVERETT'S DRUG STORE

After the Indian Wars, Spanish Buccaneers and pirates beset the region. During the Spanish invasion in the 1740's, prisoners were brought into the Onslow County Section through Bear Inlet.

Henry Morgan and his pirate associates are said to have used New River Inlet as a hideout.

Militia men were trained for the French and Indian War and for the Revolutionary conflict in the New River Area.

Onslow County residents had courageous parts in the fight for freedom and independence.

Within two years after the creation of the U. S. Marine Corps, Marines were on duty in the Coastal Area, being assigned to the privateer Sturdy Beggar of New Bern in 1777. They sailed against two English rigs which had arrived within the Bar on the Carolina seashore and captured several vessels.

In 1941, at the outbreak of World War II, the area around Jacksonville was again the scene of U. S. Marines on duty. Camp Lejeune was originated and named for the famous General Lejeune. Camp Lejeune is one of the world's largest amphibious training bases, covering an area of 173.8 square miles. Camp Lejeune starts a mile from the center of Jacksonville and extends to the Atlantic Ocean. The Base is a city in itself and is completely self sufficient. It has its own power plant, garbage and disposal plant, water treatment plant. Its buildings, which number in excess of 400, are permanent structures of steel, brick and concrete. It is beautifully landscaped with azaleas and native flowers. Camp Lejeune offers its visitors an unparalleled view of America's defense strength in its natural scenic beauty.

An Ideal Place To Live

Jacksonville can be your home while you hunt and fish in the beautiful forests, rivers, creeks and ocean that are in and border Onslow County. In our forests and plains there are bear, deer, quail, rabbit, wild turkey, duck, geese and many other game birds and animals to be found.

The City is situated on beautiful New River, which has been known by many generations as fresh water fisherman's paradise. The great game hunting reserve known as Hoffman Forest covers 80,000 acres and almost reaches the City. Coastal highway U. S. 17 runs through Jacksonville.

In New River and its creeks, and in the Atlantic Ocean, a veritable treasure of thrills and surprises await the angler with the multitude and assortment of fish to be caught—bass, perch, trout, blue, sheephead, mullet, etc.

There are over ten miles of sand beach bordering the Atlantic Ocean, within easy driving distance from Jacksonville.

As this brochure is being printed, the City has its own recreation building which operates daily programs. There is a beautifully equipped USO Club serving the off-the-base needs of the many Marines based at Camp Lejeune.

In addition there are four modern indoor theaters and also three drive-in theaters in the area. Jacksonville also has a new modern country club with a golf course and swimming pool, which was completed during 1956.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1

An *ALPHABETICAL* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2

A *HOUSEHOLDERS' DIRECTORY* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3

A *CLASSIFIED BUSINESS DIRECTORY* listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4

A "*YELLOW SECTION*", where the advertiser may explain in greater detail the services or products he has to offer.

5

A *STATISTICAL and HISTORICAL STORY* of your city: plus miscellaneous other information.

Don't Contribute to Counterfeiters KNOW YOUR MONEY!

Don't Be Fooled by Forgers KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced.

PAPER *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

CAUTION

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

"r"— RESIDENT

"h"— HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

**DO YOUR EMPLOYERS FURNISH YOU WITH THE
LATEST EDITION OF THE CITY DIRECTORY?**

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight! - Out of Mind! - Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

CAUTION

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

HOME OWNER

If you wish to know whether a man owns his home or has a telephone, refer to the Householders and Street Guide Section of your City Directory. The symbols shown above enable you to learn if the occupant owns the home and is a telephone subscriber.

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising — aims to inform the consumer and help him to buy more intelligently.
2. Good Advertising — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. Good Advertising — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. Good Advertising — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

HILL'S JACKSONVILLE

Directory of Householders, Occupants of Office Buildings and
Other Business Places, Including a Complete
Street and Avenue Guide

1961

Including Country Club Acres, Forest Grove Subdivision,
Forest Hills Subdivision and Oak Grove Subdivision

Copyright, 1961, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both side of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names. Figures in parenthesis denote old numbers.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the designation st is understood.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

*Fair Practice Code
for Advertising and Selling
recommended by the Association of
Better Business Bureaus, Inc.*

- I. Serve the public with honest values.
- II. Tell the truth about what is offered.
- III. Tell the truth in a forthright manner so its significance may be understood by the trusting as well as the analytical.
- IV. Tell customers what they want to know — what they have a right to know and ought to know about what is offered so that they may buy wisely and obtain the maximum satisfaction from their purchases.
- V. Be prepared and willing to make good as promised and without quibble on any guarantee offered.
- VI. Be sure that the normal use of merchandise or services offered will not be hazardous to public health or life.
- VII. Reveal material facts, the deceptive concealment of which might cause consumers to be misled.
- VIII. Advertise and sell merchandise or service on its merit and refrain from attacking your competitors or reflecting unfairly upon their products, services, or methods of doing business.
- IX. If testimonials are used, use only those of competent witnesses who are sincere and honest in what they say about what you sell.
- X. Avoid all tricky devices and schemes such as deceitful trade-in allowances, fictitious list prices, false and exaggerated comparative prices, bait advertising, misleading free offers, fake sales and similar practices which prey upon human ignorance and gullibility.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.
